Vehicle logbook (CRA)

One row per business trip: the date, destination, purpose and kilometres, as the CRA asks.

Name | Vehicle (make, model, plate) | Fiscal year | Odometer at year start | Odometer at year end

Date	Destination	Purpose of the trip	Odometer start	Odometer end	Km
				Total business km on this page	

Your business-use percentage is business km ÷ total km for the year, applied to your actual vehicle expenses. Keep receipts for six years.
